RE: Development Services Project No: _____
Project Name: _____
Project Location: _____

Transmitted herewith are plans for the above project. By my attached P.E. seal, I certify that these plans meet the following basic requirements:

- There are no discrepancies or inconsistencies in pipe size, type, length, slope and manhole inlet inverts between the plan and profile views or from one sheet to another, and
- All utilities have been investigated for potential conflicts, and
- All utilities are correctly shown to the greatest extent possible, and
- No known conflicts exist with the proposed sanitary sewer or storm drainage facilities, and existing utilities, and project plans have been made available to the city agencies that are impacted by this project and all known comments by these city agencies have been addressed during the preparations of these plans.

Further, all, if any, previous review comments by Development Services have been addressed in the attached plans or as explained in an attached letter.

Sincerely,

Project Design Engineer
(State of Colorado, Professional Engineer's Seal of Registration)
